To whom it may concern:

Ms. Kristine Trudeau was employed by Rainy Day from 2006 until 2009. During that time she worked as a graphic designer, design team leader, and design department manager.

I found Ms. Trudeau to be very helpful and conscientious with every opportunity presented. She always showed a great desire and ability to perform high quality work in every situation. Customers' needs were consistently met and their expectations exceeded.

During her time at Rainy Day, Ms. Trudeau excelled at many new technologies, always able to work in new environments and adapt to changing technologies and business processes. She was also excellent at seeing opportunities for improvements in company and departmental processes and she greatly influenced procedures that are still in use today.

I would highly recommend Ms. Trudeau to any organization seeking a strong creative person with a good understanding of design techniques and technologies, and with very strong organizational skills. Rainy Day has been sorry to see her go and we wish her well in future endeavours.

Scott Toderash

Chief Technology Officer
